## TRI STAR SERIES

### TRI STAR CLASS III HARNESS

Perfect for wind turbine/tower work, high angle rescue, and power/telecom workers. This is a fully padded harness designed for multiple industrial and rescue purposes with built in frontal and dorsal attachment points. Please call for a complete list of the optional add-on accessories to customize the Tri Star Class III Harness to your needs.

**ORDER #: A1200**

**TYPE: CLASS III RESCUE SYSTEM**

### EZ DON

Vest type harness designed for confined space rescue, assisted rescue, and self rescue. One size fits most.

**ORDER #: A1198**

**TYPE: CLASS III RESCUE SYSTEM**

# RIT SAFETY SOLUTIONS

## P . R . E . S . S . - P R E R I G G E D E G R E S S S A F E T Y S Y S T E M S

### P.R.E.S.S. POCKET PACK

Most preferred bailout system. Multipurpose Class II Harness that is easily accessible and comfortably fits into your pocket.

**ORDER #:** (SEE PAGE 11 FOR CUSTOM OPTIONS AND CORRESPONDING NUMBERS)

**TYPE:** EMERGENCY EGRESS—SELF RESCUE

### PRE-RIGGED P.R.E.S.S. SYSTEM

Multi-purpose class II harness, fits in most gear with modified slot opening for harness integration. Optional loop kits available as well as internal and external designs (please call for details).

**ORDER #:** A1066

**TYPE:** EMERGENCY EGRESS—SELF RESCUE

### FIRE BELT P.R.E.S.S.

Escape/ladder belt design that is simple, compact, and cost effective.

**ORDER #:** (SEE PAGE 11 FOR CUSTOM OPTIONS AND CORRESPONDING NUMBERS)

**TYPE:** EMERGENCY EGRESS—SELF RESCUE

### SCBA P.R.E.S.S.

Integrated into the SCBA system, the SCBA P.R.E.S.S. system replaces the original waist belt with a certified egress system. Positional item available for purchase for all SCBA manufacturers.

**ORDER #:** ROPE: A1180, WEBBING: A1179

**TYPE:** EMERGENCY EGRESS—SELF RESCUE

### KEVLAR ROPE DESCENDER

This is a closed system with an auto-lock. This helps keep debris and obstacles out of the device and the auto-locking mechanism will prevent uncontrolled descents. This descender can be applied to any of our egress systems.

**ORDER #:** RSS-ALR

**TYPE:** EMERGENCY EGRESS—SELF RESCUE

## L I V O N I A   E S C A P E   S Y S T E M

### L I V O N I A   B A G

This is an escape/ladder belt system that serves a dual purpose: self rescue and a ladder hook. These options are convenient for ladder, bucket work, and emergency egress.

**ORDER #: A1083**  
**TYPE: EMERGENCY EGRESS SELF**  
**RESCUE**

## F . F . R . E . D .

## F I R E   F I G H T E R   R E S C U E   E S C A P E   D E V I C E

### SCBA F . F . R . E . D .

This system is integrated to the SCBA and replaces the original waist belt with a certified egress system. Positional Item for purchase and is available for all SCBA manufactures.

**ORDER #: ROPE: A1085,**  
**WEBBING: A1084**  
**TYPE: EMERGENCY EGRESS—SELF**  
**RESCUE**

# RIT SAFETY SOLUTIONS

## LIFE SAFETY HARNESSES - ESCAPE / LADDER BELT OPTIONS

### CLASS II HARNESS

This is our most preferred harness option. Compatible with all P.R.E.S.S. systems and can be made with either Kevlar or Nylon. We offer internal and external designs and can customize it to have either center, left, or right oriented closures with ladder/position hook options.

**ORDER #: NYLON: A1047/KEVLAR: A1120**  
**TYPE: HARNESSES/ESCAPE BELTS**

### FIRE BELT

Certified escape belt made with 100% Kevlar webbing and designed so that one size fits most. (Note: Fire Belt P.R.E.S.S. Systems are available upon request).

**ORDER #: NYLON: A1135/KEVLAR: A1124**  
**TYPE: HARNESSES/ESCAPE BELTS**

### RIT BELT

Certified escape/ladder belt. This system is ideal for hands free ladder work and comes with a 2" side opening ladder hook. This system is designed for positioning and egress and has a built in Kevlar lanyard.

**ORDER #: A1127**  
**TYPE: HARNESSES/ESCAPE BELTS**

### RIT TRUCK BELT

Same specifications as the RIT Belt. Contains a 3.5" leather back support, tool and axe holders, and an optional leather scabbard.

**ORDER #: A1128**  
**TYPE: HARNESSES/ESCAPE BELTS**

# RIT SAFETY SOLUTIONS

## LARGE AREA GROUP SEARCH

### GROUP SEARCH PRODUCT

Designed for a 4-person team, this system comes with 100'-200' of rope in a Chicago style bag with a rear pocket for tag lines or tools. We offer various tag line options.

**ORDER #: A1092 (100 FT) A1097 (200 FT)**  
**TYPE: ROPE ASSISTED SEARCH SYSTEMS**

### PRIMARY SEARCH LINE

This system also comes in a Chicago style bag with a molded opening or easy access to the rope. Rope can be deployed from either end of the bag and we offer systems with up to 300' of rope.

**ORDER #: 25FT: A1159, 35FT: A1153. 50FT: A1157, 65FT: A1161**  
**TYPE: ROPE ASSISTED SEARCH SYSTEMS**

### MARKER SYSTEM

This is a series of knots and rings every 20ft. that can be added to your search lines to help the workers keep track of distance and direction. This is especially helpful for RIT team applications and large area search.

**ORDER #: A1090 (100 FT) A1103 (200 FT)**  
**TYPE: ROPE ASSISTED SEARCH SYSTEMS**

### RETRACTABLE TAG LINE

Keep your hands free with our auto retracting tag line. This helps to reduce rope management and can be clipped onto a harness or SCBA. We offer this product in 20'-50' lengths.

**ORDER #: A1168 (20 FT) A1170 (50 FT)**  
**TYPE: ROPE ASSISTED SEARCH SYSTEMS**

# RIT SAFETY SOLUTIONS

## LARGE AREA GROUP SEARCH

### PERSONAL TAG LINES

Customize your tag line with various lengths as well as several rope or webbing sizes. We also offer a plethora of bag styles and you can choose whether or not to add a snap hook or a carabiner.

**ORDER #:** 25FT: A1159, 35FT: A1153, 50FT: A1157, 65FT: A1161

**TYPE:** ROPE ASSISTED SEARCH SYSTEMS

### FDTN BAG

This bag is specifically designed to carry all equipment needed to provide backup air, including the SCBA face mask for a downed firefighter. The large carabiner enables you to secure the bag to the waist strap of the downed firefighter during removal. Breakaway shoulder strap is also included.

**ORDER #:** A1174

**TYPE:** RESCUE PRODUCT

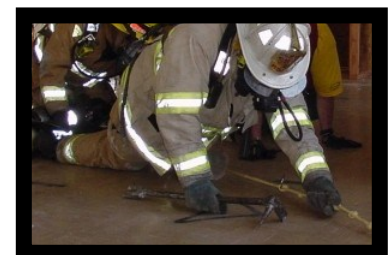

### V.E.S. VENT ENTRY SEARCH

This is an example of one of the many uses of our retractable search lines. Simply hook the carabiner to your entry ladder and keep your hands free as you search the building and easily find your way back to your entry point.

### VISIBILITY FOR SEARCH SYSTEMS

All of our search systems are made with reflective trim to help keep your team together in low visibility settings. Kevlar rope and webbing are highlighted by TIC.

**GENERAL PRODUCT INFORMATION**

# RIT SAFETY SOLUTIONS

## MISCELLANEOUS RESCUE PRODUCTS

### RIT ENTRY BAG

The Entry Bag is a durable bag that is designed to provide all emergency equipment and air supply for an injured person. The bag will hold a 1hr bottle, regulator, high and low pressure hoses, and a face mask without tangling. The adjustable shoulder strap has a quick release buckle. We offer several designs and configurations. Customize yours today!

**ORDER #: A1174**

**TYPE: RESCUE PRODUCTS**

### APARTMENT PACK

This system is designed to hold 150'-300' of 1.75" hose. It is adjustable by length and by width so that it can fit any rig. The carry handle can be utilized in conjunction with the break away shoulder strap for easy carrying. Reflective trim allows the user to find the quick release buckles at the front of the pack for quick deployment.

**ORDER #: A1026**

**TYPE: RESCUE PRODUCTS**

### HIGHPOINT ANCHOR SYSTEM

Contains 100' of 9.5mm Kevlar over polyester rope and is packed in a weather resistant Cordura bag. It comes pre-rigged with three NFPA certified ladder hooks and two split pulleys. The 2:1 mechanical advantage allows for easy horizontal dragging, vertical raising, or lowering of an injured person.

**ORDER #: A1118**

**TYPE: RESCUE PRODUCTS**

### RESCUE BLANKET

The extrication blanket is made of a Nomex outer shell, a Neoprene moisture barrier and an Aramid thermal liner. This 60"x60" lightweight blanket provides protection against heat, flame, and debris. Machine washable for reuse.

**ORDER #: A1025**

**TYPE: RESCUE PRODUCTS**

## CERTIFICATIONS, RETURN POLICY, AND WARRANTY

### CERTIFICATIONS

#### UL CERTIFICATION

RIT Safety Solutions is proud to say that every Emergency Egress System, Life Safety Belt and Harness in our product line has been thoroughly tested and certified by Underwriters Laboratory, a highly regarded, independent certification organization that has been testing public safety products for more than a century. UL certifies products to the standards set forth by ANSI and the National Fire Protection Association.

#### FIRE RATED

Our systems have also passed the heat and flame engulfment test required for the SCBA unit (NFPA 1981 Standards) to withstand temperatures of 1800-2000 degrees for ten seconds without damage. NFPA 2012 requirement 400-600 degrees Celsius high temperature test for Rope.

#### ISO CERTIFICATION

RIT Safety Solutions is certified to ISO 9001;2008 for the Invention, Design and Development, Manufacture, Assembly and Distribution of safety equipment for Emergency Services Professionals and Industrial Safety.

---

### RETURN POLICY

- ◆ Please note: NO PRODUCTS will be returned without a Returned Good Authorization (RGA) Number. Please contact RIT Safety Solutions to discuss the reason for the return and to have an RGA Number assigned to you.
- ◆ When returning a gently used product for repairs: The buyer will absorb the cost of shipping the product back to RIT Safety Solutions and RIT will provide a quote for the repair to the buyer. The buyer can decide whether or not to go ahead with the repairs or to purchase a new product.
- ◆ When returning a product because of customer clerical error: If the customer accidentally keys the wrong product information (either product number or quantity) and realizes the error after receiving the product and wishes to return unwanted product, the following restocking fees will apply (note: RIT only accepts returns for new/unused product): no restocking fee for items that cost less than \$100, \$25 per item on items that are \$100-\$499, \$50 per item on items \$500 or more. The buyer will also pay the shipping charges to return the merchandise in addition to the restocking fees.
- ◆ When returning a product because of RIT Safety Solutions clerical error: If the customer purchase order is correct and RIT is responsible for shipping incorrect or insufficient product, RIT will replace the product and no additional cost and no additional shipping fees.

---

### WARRANTY

RIT Safety Solutions warrants its equipment to be free from defects in material and workmanship, under normal use and service, for a period of one year from the date of delivery to the customer. The obligation under this warranty is limited to replacing or repairing any part returned to us and inspected by us and confirmed to be thus defective. All returns must be authorized, in writing, prior to return to our warehouse. The foregoing warranty will not apply if the material is damaged by causes other than normal use, including but not limited to: operator error, improper use or misuse, or damage caused by fire or water. The staff at RIT Safety Solutions are available to answer your questions regarding the research, technology and development used in making our personal safety equipment safe and reliable.
